

Right to Repair Questionnaire (RCW 19.415)

1. Please identify the specific product model(s), revision(s), and serial number range(s) for which documentation is requested.

2. Please describe the specific maintenance, diagnostic, or repair activity for which the requested documentation is needed.

3. Please indicate the capacity in which you are requesting this information:
 - Individual owner performing personal repair
 - Independent repair technician or repair business
 - Educational or training use
 - Other (please describe)

4. Will the documentation be used in connection with products operating in any of the following environments:
 - Medical or healthcare applications
 - Public safety, law enforcement, fire, or emergency services
 - Industrial, infrastructure, or utility systems

If yes, please describe the application.

5. Is the documentation requested intended to support:
 - A specific current repair, modification, or maintenance activity
 - Ongoing servicing of a defined customer fleet
 - General reference, archival, educational, or research purposes

Please describe.

6. Will the documentation be:
 - Used solely within your organization for servicing activities
 - Shared with customers or third parties
 - Incorporated into training materials, databases, repositories, or online resources

If yes, please describe the nature and purpose of such distribution.

7. Please confirm that the requested documentation is being sought in connection with diagnosis, maintenance, or repair of covered products within the scope of RCW 19.415.

By signing below, I certify that the information provided in this questionnaire is true, accurate, and complete to the best of my knowledge.
